

JANDU
TRUSTED TO DELIVER QUALITY

COATING
LAMINATION
SLITTER
CUTTING
PRINTING

Founded in 1972 at Noida (Uttar Pradesh, India) JANDU ENGINEERING WORKS has been a pioneer in the Indian Converting Machinery Industry for many years, producing a wide range of products.

We are known as a distinguished manufacturer, exporter and supplier of superior quality products, such as multi purpose coating and laminating machine, Adhesive coating machine, silicone coating machine, slitters, reel to sheet cutting machine, Rotogravure printing machine, label printing machine and die cutting machine.

Our well established infrastructure enables us to manufacture optimum quality products victimizing premium quality inputs so as to satisfy international quality standards. Our machines have performed effectively year after year in different parts of the world. We are also fortunate to have a highly qualified and committed team to assist us in satisfying the demands and needs of our clients. As a further advantage, we offer our full range of products in a variety of different specifications to meet the specific requirements of our clients.

VISION

Through intelligent machines, integrated processes and intuitive handling we help our customers create a digital future.

MISSION

Our mission is to offer high value products and a satisfying ownership experience.

TRUSTED TO
DELIVER
QUALITY

RAPIDURE

ADHESIVE & SILICONE COATING MACHINE

Experience high-quality, consistent coating with Jandu RAPIDURE. Its advanced technology, onboard electronic controls, and seamless operation ensure top-notch results and increased productivity, allowing for simultaneous silicone and adhesive coating in a single machine.

TECH OVERVIEW

Working Width	500mm -2500mm
Substrate	Paper,Film,Non-Woven,Foil,PET
Chemical base	Water Base, Solvent base
Speed	100-300 M/min

RAPIDE

SILICONE COATING MACHINE

Our Silicone Coating Machine is designed to perform rapid and accurate coating as per international standards. The Machine can be used for various purposes, such as making release liners for label stock, special tapes and filmic liner.

TECH OVERVIEW

Working Width	500mm - 2500mm
Substrate	PET, Paper, Film, Non-woven
Chemical base	Water Base, Solvent Base
Speed	150 & 300 M/Min.

DURE

ADHESIVE COATING & LAMINATION MACHINE

With the Jandu Dure CL, Coaters are assured of consistent, high quality coats, improved levels of sustainability, productivity, on-board electronic control, as well as an ease of operation due to the technology.

TECH OVERVIEW

Working Width	500mm - 2500mm
Substrate	Paper, Film, Non-woven, Foil
Chemical base	Water Base, Solvent Base
Speed	100 & 200 M/Min.

FORTE

JUMBO SLITTING & REWINDING MACHINE

In demanding production environments, Jandu FORTE slitting machine meets your needs. Featuring a comprehensive range of features and options, The machine's modular design makes upgrading to a higher level of automation easy and inexpensive.

TECH OVERVIEW

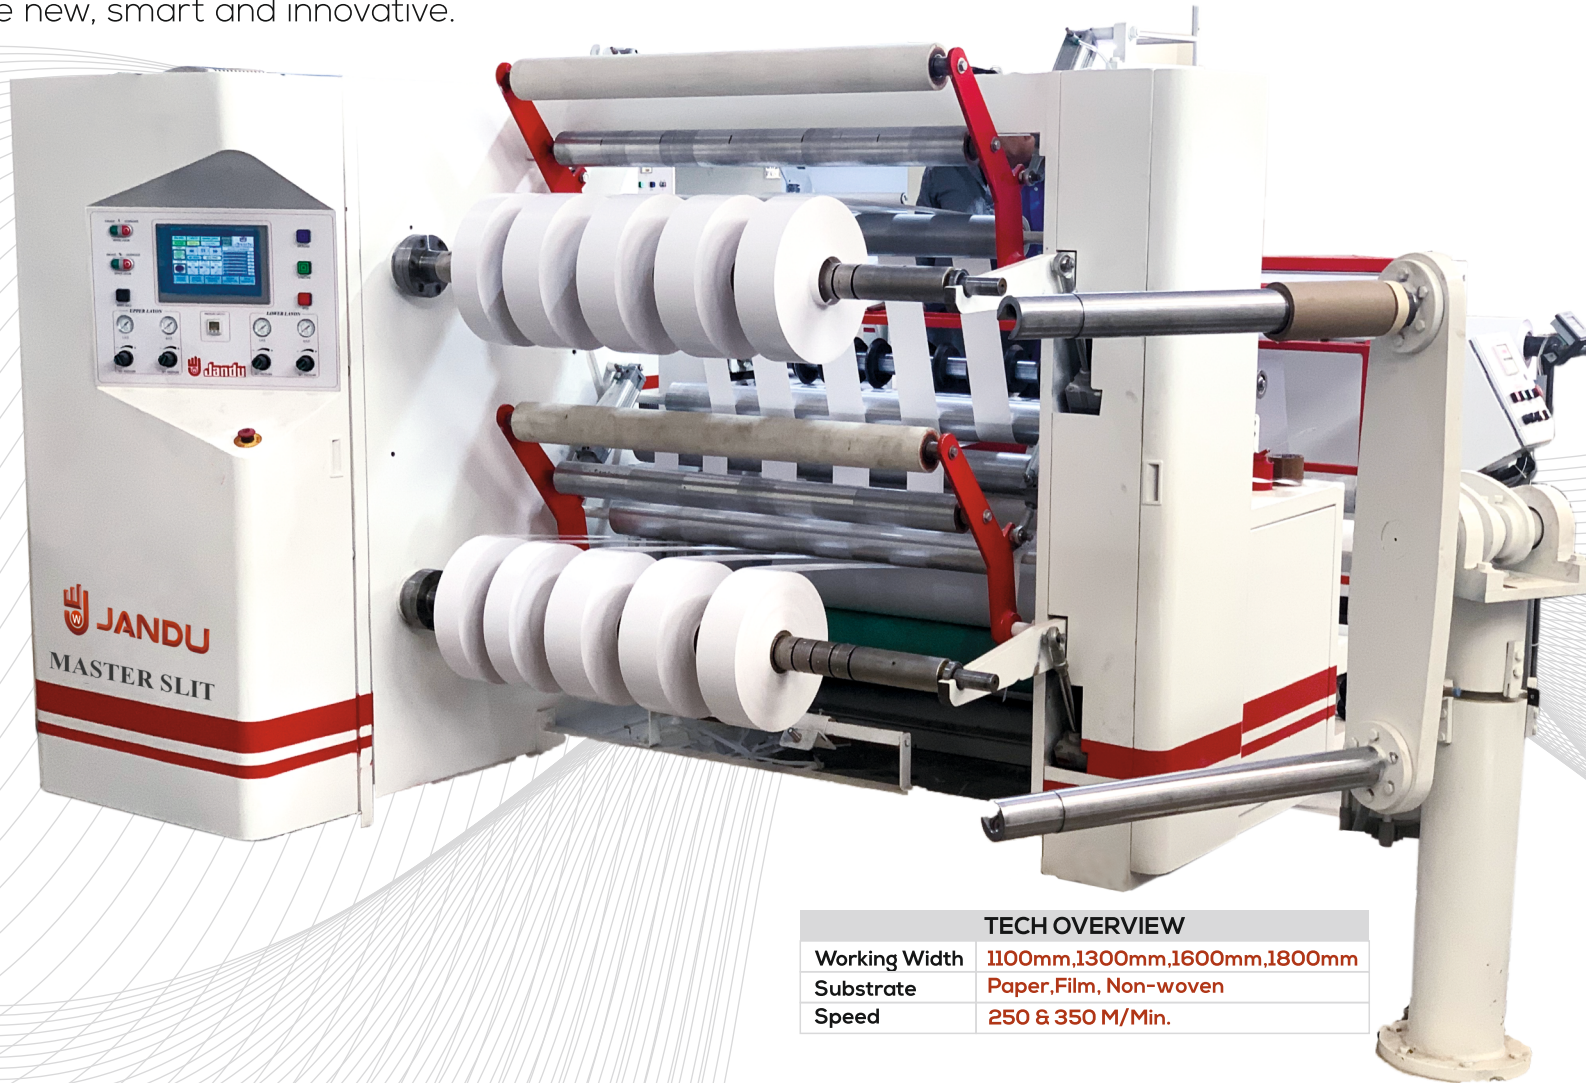

Working Width	1100mm - 3000mm
Substrate	Paper
Speed	200 & 500 M/Min.

FINO

SLITTING & REWINDING MACHINE

A wide variety of flexible substrates can be fine slit using slitting and rewinding machines of Jandu. To ensure that you receive the optimal performance, we combine solid core features with a broad array of exciting solutions that are new, smart and innovative.

TECH OVERVIEW

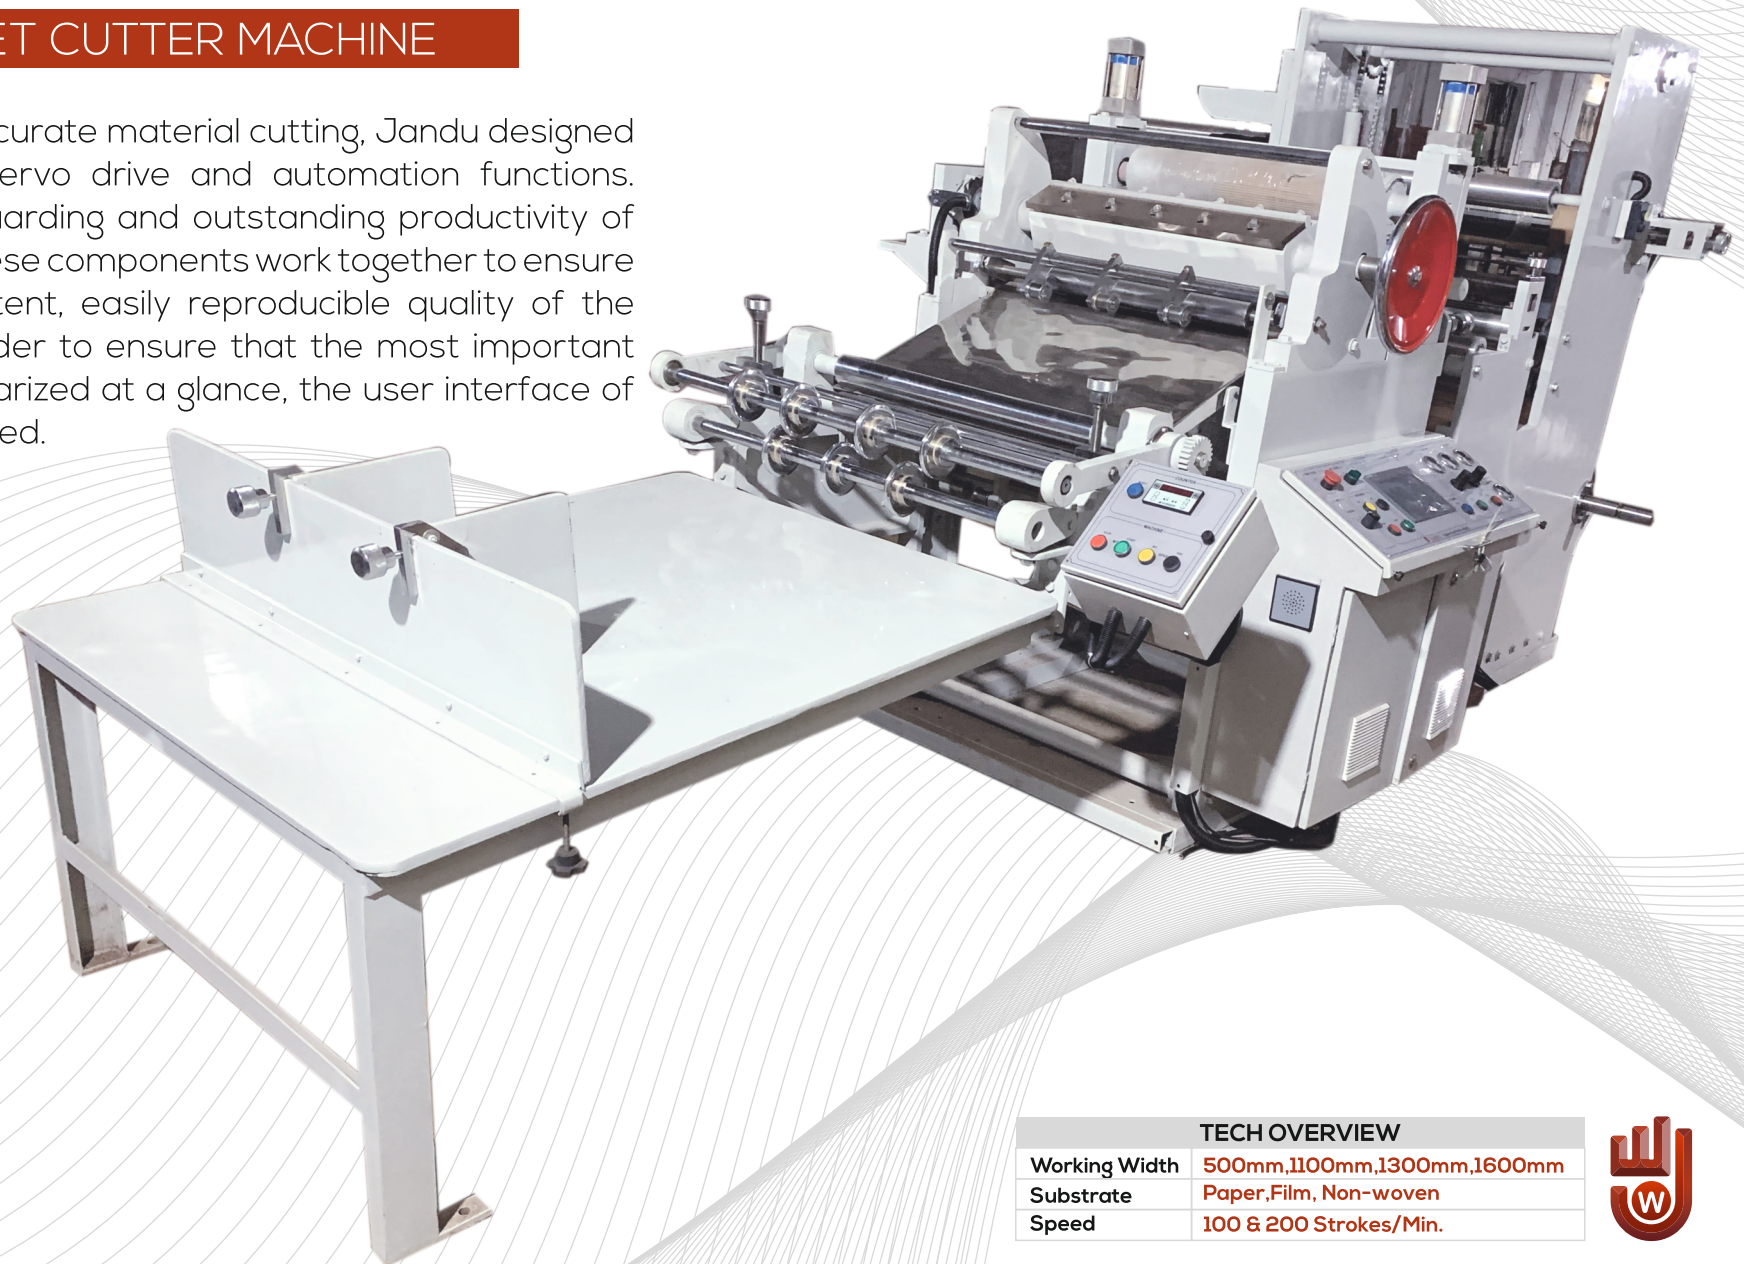

Working Width	1100mm,1300mm,1600mm,1800mm
Substrate	Paper,Film, Non-woven
Speed	250 & 350 M/Min.

EXATO

SYNCHRO SHEET CUTTER MACHINE

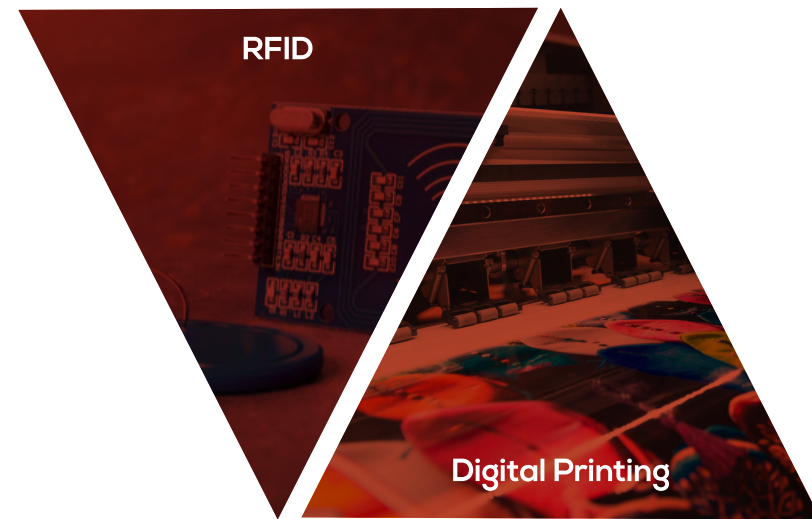

In order to deliver accurate material cutting, Jandu designed this machine with servo drive and automation functions. In addition to safeguarding and outstanding productivity of the machine, all of these components work together to ensure it provides a consistent, easily reproducible quality of the highest quality. In order to ensure that the most important information is summarized at a glance, the user interface of the machine is designed.

TECH OVERVIEW	
Working Width	500mm,1100mm,1300mm,1600mm
Substrate	Paper,Film, Non-woven
Speed	100 & 200 Strokes/Min.
